

TAKE THE LEAD

15/02/2024 – 22/02/2024

LEADERS ARE THOSE WHO EMPOWER OTHERS

THE PROJECT IN FEW WORDS

In the past years, Kora and its partners have been involved in a large number of youth mobilities. Even though each project has its own lifecycle, a common pattern started to appear, when comparing outcomes and experiences from different projects: the **involvement of group leaders** during the different phases of a youth mobility is much related to the **quality** of its outcomes.

The group leaders are often not involved properly in the preparatory phases, and, in practice, too often the person in charge of most of the activities is a facilitator. This dynamic undermines the strengths of **peer-to-peer learning** and **non-formal education**, and can lead to situations where participants feel like a teacher-pupil relationship. Through previous partnerships, organisations realised once again that the youth leader plays a **key role** in the different phases of a youth mobility.

That is why *Take the lead* wants to put the **youth leaders on the spotlight**: they should be the centre and the focus of a real non-formal education experience. The peer-to-peer learning process needs experienced youth leaders that can facilitate the inclusion and the active participation of young people.

In one sentence, **the goal of *Take the lead* is to improve peer-to-peer learning in youth mobilities by enhancing the involvement of group leaders in the activities.**

PARTICIPANTS

20 participants in total

Participants have to be youth workers that already **working** in the organisation or **active members** who are willing to be more involved (but are missing some competences) or **youth leaders** of previous youth mobilities who wants to improve their skills for their future involvement in the organisation. The main point is the **commitment** of the youth worker to be involved with the organisation in future projects. The commitment of the participant has to be a priority during the selection. Youth workers will bring back from the training course **skills and competences** that can be shared and used in the activities of the organisation.

Listing the various criteria of selection:

- **Motivation** regarding the **topic** of the training course (will to improve facilitator skills, wider knowledge on non-formal learning...)
- **Motivation** in being involved in the organisation of the **planned youth exchanges**
- Good level of **English**, at least to understand everything and be able to express oneself on any topic
- **Commitment** to promote the project and keep contacts with Kora and the other leaders for the organization of the planned youth exchanges.

Even though it is not a primary requirement, it would be appreciated if the youth workers participating in the training course belong at some level to the **category of fewer opportunities**. It is not mandatory, but partners are asked to check that on candidates, and, if similar conditions are given among more candidates, prefer to involve youth workers with fewer opportunities.

THREE IMPORTANT NOTES ABOUT TRAVELING BY TRAIN IN ITALY:

- Since August 2023 the official Italian train company (Trenitalia) introduced the **check-in for train tickets**, just like a flight, you must do the check-in before getting in the train to validate your digital ticket. You can do it in their official app, or by following the instructions that you have received via email when buying tickets.

- Some regional trains in Italy are quite old, and don't have automatic systems to open the doors when stopping in train stations. Usually there is a **big handle** that you must **strongly pull** when the train stops in the train station of your destination. We advise you to **reach the door before the train stops** to get ready to get off the train. We don't want to receive your calls telling us that you missed the stop (speaking by experience)!

- If you don't have digital tickets, the ticket must be bought from the ticket office or ticket vending machine (image on the left) of Trenitalia. **All tickets must be stamped in the machine** (image on the right) **before getting on the train!** If not a penalty of 100€ can be required.

TRAVEL REIMBURSEMENT

It is fundamental that you keep all your **original travel documents**: bus and train tickets, invoices, boarding passes... **The reimbursement cannot be done without these documents**. Participants will be reimbursed up until a maximum amount granted by the European Commission.

Consider that taxis and first class tickets cannot be reimbursed.

When you buy your tickets make sure you don't exceed the following amount, or you will pay the difference yourself. Buying tickets in advance will help you avoid that scenario.

***IMPORTANT:** If you are travelling with **RyanAir** and you use their app for the boarding pass it is essential that you make a screenshot of the boarding pass before the departure. That is because the boarding pass will disappear from the app once the flight lands.

Maximum reimbursement per distance (the distance band is calculated from the official address of the sending organisation and the hosting location):

Distance	Standard Travel	Green Travel
0 - 10 km	0 €	0 €
10 - 99 km	23 €	23 €
100 - 499 km	180 €	210 €
500 - 1999 km	275 €	320 €
2000 - 2999 km	360 €	410 €

Participants will be reimbursed after the end of the training course, once they provided all the original travel documents, including the train, bus and shuttle tickets of the return trip, which have to be sent by post if they are not digital. Further and detailed instructions will be given during the project.
